|  |       |      | This practicum is geared toward students interested in a career in brand management or as a creative service provider for brands. The course offers students the opportunity to work on a real brand (preferably national) with teammates who offer a variety of expertise including strategy, design, and media. Students from Kelley School of Business, The Media School, and the Eskenazi School of Art, Architecture + Design are encouraged to enroll. This team composition mimics what students will experience in their future jobs and hence, prepares them to see a business problem from a different lens and appreciate the diversity of views. This course provides students a unique learning experience of applying the synergy of different talents, knowledge, skills, and perspectives to create effective strategies, tactics, and deliverables for a brand that can be implemented in the real world.<br>Application is required for enrollment:<br><a href="https://forms.gle/RQAUJheAotJ429B89">https://forms.gle/RQAUJheAotJ429B89</a><br>Above class meets In Person. VT: PREPARING FOR LIFE AS A TEACHE

CLSD 11131 ARR ARR WB WEB Allen C 25 0 0

In this course, students will begin to explore the personal, institutional, political, and cultural forces that impact the lived experience of being a professional teacher  
Possible key questions for reflection include: How does self-knowledge help teachers positively shape their professional lives? How does school culture shape the day-to-day life of teachers and how do you identify a school culture that is right for you? How does the current emphasis on standardized testing impact the life of a teacher and how can teachers positively respond to this? What does it mean to be a "role model" and what are the challenges and opportunities presented by this social role? What does community mean and how are teachers participants in and facilitators of positive community?  
Exploration of these questions will occur through student centered, hands-on, and interactive classroom activities
