There will be one interactive online class meeting per week. Before each class, students will view recorded lecture videos, complete lecture quizzes, read the textbook and work on textbook-related online activities. Weekly class time is used for collaborative, active, and inquiry-based activities designed to deepen understanding of course topics and to provide practice in disciplinary thinking (e.g., visualizing biological processes, making predictions, drawing conclusions from data, and reading and analyzing scientific publications). 	This course is designed to be blended/flipped format relative to a traditional class. Students are expected to invest time outside of class to complete all of the recorded lecture videos, textbook and other assigned readings lecture quizzes and weekly assignments. Class time is used in a variety of ways including "bench to bedside" lectures, practice in inquiry based activities, but are NOT substitutes for out of class reading. There is an increased emphasis on learning how to read scientific literature, communicate science for a general audience through creative assignment, technical writing and designing and interpreting experiments									
	Above class taught in a Hybrid manner which includes In Person and Online Instruction. For more information visit https://covid.iu.edu/learning-modes/index.html
